

The Coweta County Water & Sewerage Authority offers a **Leak Insurance Program** to accompany its Leak Adjustment Policy. Details of the Leak Insurance Program are below along with coverage amounts charged per meter:

- Eligible residential and irrigation customers are enrolled in the first tier of residential and irrigation insurance coverage, which is \$1,000 coverage (per year) for \$2.00/month. Additionally, you may request to enroll in the second tier, which is \$2,000 in residential and irrigation coverage (per year) for \$4.00/month.
- Eligible Commercial, Industrial and School (CIS) customers are enrolled in the first tier of CIS insurance coverage, which is \$5,000 coverage (per year) for \$10.00/month. Additionally, CIS customers may request to enroll in the second tier, which is \$10,000 of CIS coverage (per year) for \$20.00/month.

With Coweta County Water & Sewerage Authority's Leak Insurance Program, should you have a leak you are **responsible for paying your base charge and your average bill over the last 12 months**. The insurance can only be used towards one leak in a 12 month period. For water charges in excess of coverage, we will apply an adjustment following application of insurance.

We will apply an insurance charge of \$2.00/month for \$1,000 leak adjustment insurance for residential and irrigation and \$10.00/month for \$5,000 leak adjustment insurance for CIS service. If you wish to apply for the higher tiers of coverage, please email us at [contactus@cowetawater.com](mailto:contactus@cowetawater.com) or call (770)254-3710.

Should you decide to not participate in our Leak Adjustment Insurance program, please let us know that you wish to "opt out" by emailing us at [contactus@cowetawater.com](mailto:contactus@cowetawater.com), or completing the waiver contained within this document. We will remove the charge on future bills; however, please note that you will be responsible for paying all balances due after we provide any adjustment subject to our updated Leak Adjustment Policy and at our sole discretion.

No credit will be given in any twelve (12) month period above the insurance coverage amount for one leak occurrence; nor to anyone who has opted out of coverage. "Leak Insurance Program" as implemented by the Coweta County Water & Sewerage Authority, shall mean a program by which eligible customers will be protected from inordinate charges in the event of a leak as defined in the Leak Adjustment. No protection is afforded to any eligible customer who fails to repair a defective waterline leak after ten (10) days of notification or detection of said leak. The Authority may deny leak protection coverage partially, or in its entirety, at its sole discretion.

**Notice to Opt Out of Coverage**
