

A DRIP can create a WAVE of change!

Coweta County Water & Sewerage Authority has partnered with the Community Foundation of West Georgia (CFWG) to maintain the Drip Program, where every drop counts. The Drip fund is held and administered by the Community Foundation of West Georgia, Inc., a Georgia non-profit corporation.

The Drip Program began on June 1, 2019. As part of the program, all utility bills are automatically rounded to the next whole dollar. The funds collected are used by CFWG to support charities local to Coweta County. Their tax identification number is 03-0472714.

All donations to this fund are utilized during the annual grant cycle for nonprofit agencies that support Coweta County and its residents. In addition to rounding up your bill, you have the option to opt into giving an additional contribution. For this portion of your contribution you will get to choose a set amount that will automatically be added to your monthly bill.

There is no action required by you to enroll in the Drip Program, all customers are automatically enrolled. If you do not wish to participate in the Drip Program, please fill out the remittance slip below accordingly or call and speak to one of our customer care team members.

Thank you in advance for your generosity and for your participation in the Drip Program.

Your drop counts!

Together, we will make a wave of change in our community.

Auto-Pay v.s. Bank Draft

Auto-Pay

You can set your date to pay via your stored credit or debit card.
Register online at: <https://cowetawater.firstbilling.com/Account/Login>
Note: You can still get charged a late fee on auto-pay if your payment date is set after your bill's due date. Be sure to select a date that is on or before your bill's due date.

Bank Draft

Bank draft always goes through on the business day before your bill is due.
Signing up for bank draft is easy and you will never have to worry about another late fee again!
Sign up for bank draft now at: https://ccwsa.formstack.com/forms/bankd_draft

We recommend bank draft as the most reliable payment option. If you are signed up for auto-pay or bank draft, be aware of over drafting your account and familiarize yourself with our returned payment policies. Please avoid signing up for both as this may result in a double payment of your monthly bill.
